### Item 2 Subsidy Type

[Back to the 50059](#)

Enter the code for the subsidy the tenant will receive during the period covered by this (re)certification. Only one code can be entered. If the tenant benefits from more than one type of subsidy, use the code for the project-based subsidy the tenant will be receiving.

Example: If a tenant in a Section 236 property will receive Section 8 assistance, enter "1".

Example: If a tenant in a Section 236 property receives Section 8 assistance through a Housing Choice Voucher (HCV), no HUD-50059 is to be completed. The PHA issuing the HCV is responsible for reporting the tenant's information to HUD. Refer to the 4350.3 REV-1: Paragraph 7-4.C and the 2.0.2.D MAT Guide: Chapter 4, Section 4.23

Valid codes are as follows:

|                                                                    |                 |                        |

### Item 3 Secondary Subsidy Type

[Back to the 50059](#)

Enter "S" if this tenant is receiving Section 8, RAP, or Rent Supplement assistance and is living in a Section 236 property. Enter "B" if this tenant is receiving Section 8, RAP or Rent Supplement assistance and is living in a BMIR property. Leave blank if the tenant does not live in a Section 236 or BMIR property or the certification subsidy type is Section 236 or BMIR.

## In OneSite

- Setup / affordable / compliance / programs / edit the program
- The "secondary subsidy" pull-down menu can be used to change the secondary subsidy assigned to this program if there are multiple to select. If only 236 or BMIR exists at the property it would default to that program.

### Item 12 Effective Date

[Back to the 50059](#)

Enter the date this (re)certification is to be effective. For a move-in (MI), use the date the tenant moved into the project. For an Initial Certification (IC), use the date the tenant began to receive the type of assistance (subsidy) entered in Item 2. For an Annual Recertification (AR) or an Interim Recertification (IR), refer to Chapter 7, Sections 1 & 2, of HUD Handbook 4350.3 REV-1 for assistance in determining this date. Enter effective date as MMDDYYYY.

(MAT 10 Section 2 Field 11 4350.3 REV-1: Use Chapter 7 and 202D MAT Guide: Chapter 7, Paragraph 9-8 as general references)

Note: Effective date should never be confused with the Reported on/Voucher date. The Effective date is the date the (re)certification is to be effective, and the Reported on/Voucher date is the date that the action was first reported to HUD and included on a HAP voucher.

Note: See 2.0.2.D MAT Guide Chapter 4, Section 4.6 for guidance on splitting a household or moving a household member to another household.

## Instructions for TRACS 202D form HUD-50059 (06/2014)

### Item 14 Next Recertification Date

[Back to the 50059](#)

Refer to the 4350.3 REV-1: Paragraph 7-5 regarding the next recertification date for Annual Recertifications, Move-Ins, and Initial Certifications types. Interim Recertifications, Gross Rent Changes, and/or Unit Transfers do not affect this date.

(MAT 10 Section 2 Field 70 4350.3 REV-1: Paragraph 7-5)

Note: The next Annual Recertification date should not be more than one year after the effective date of the (re)certification being submitted. However, there are instances in which it can be less than one year.

### In OneSite

This is determined by the Move In date (or date of the Initial Certification awarding subsidy). Typically it will be the first of the month a year from the MI or IC certification. (So a 9/17 Move In would have the Next Recertification Date of 9/1 the next year) The Next Recertification Date (NAR date) may be edited by going to:

- View the Household / Certifications
- Next to "HUD next recertification" click the date and edit.

The screenshot shows the OneSite interface for a household. At the top, it displays 'Status: Current resident' and 'Balance: \$ -1,142.00'. Below this is a navigation bar with tabs: Summary, Lease details, Certifications, Financial, Ledger, Miscellaneous, Letters & notices, Docs, Follow-up, and Activity. The 'Certifications' tab is selected. Under this tab, there is a section titled 'Household's next annual recertification date' which is highlighted with a red box. It shows 'HUD next recertification' as '04/01/2016'. To the right of this date are links for 'View notice dates' and 'Deposit payment schedule'. Below this is a section for 'Current certification information' with a table showing details like Effective date (04/01/2015), Tenant rent (\$107.00), Total tenant payment (\$176.00), Total active members (1), Utility allowance (\$69.00), Assistance payment (\$1142.00), Program (Section 8 - NY360004028), Utility reimbursement (\$0.00), Gross rent (\$1318.00), Max rent (\$1249.00), and Audited (No). At the bottom, there is a section for 'HUD repayment plan' showing a balance of 0.00 and a link to 'View repayment ledger'.

It is also possible to set up shared next annual recertification dates, shared either by the entire property or by building. \*\*\*a NAR date may never be more than a year from the last recertification\*\*\*

- Setup / Affordable / Compliance / Annual recertification due dates, select the month.

The screenshot shows a window titled 'Setup - Annual recertification due dates' with a window ID of 121.090.500.005. It contains a message: 'Select the appropriate method that will be used when determining a household's next scheduled annual recertification due date.' There are three radio button options: 'Recertify households based on their move-in date', 'Recertify all households within the property at the same time' (which is selected), and 'Recertify all households within a building at the same time'. Below these options is a table with two columns: 'Property' and a dropdown menu. The 'Property' column has one entry: 'Test\_1018 Development\_Test'. The dropdown menu is open, showing a list of months from January to December, with 'March' selected.

### Item 16 Certification Type

[Back to the 50059](#)

Enter only one code in this Item that best describes the main reason for preparing this form. If a previous (re)certification is being corrected, use the same code that was on the original (re)certification. If a partial certification is being created, such as a Unit Transfer or Gross Rent change, complete a

**HUD-50059 A** instead of this form.

The following are valid codes for this Item:

Move-In (Code **MI**). Use this code only when a new tenant moves into the project.

Initial Certification (Code **IC**). Use this code:

1. When an in-place Market Rent, a Section 236 or a BMIR tenant begins receiving subsidized rent.
2. To give Section 8, 811/202 PRAC, 202/162 PAC, Rent Supplement, or RAP assistance to an in-place tenant who is now paying a rent not based upon the tenant's income (e.g. paying 236 Basic Rent or BMIR rent, when they would be eligible for a lesser rent under the deeper subsidy program.)
3. To transfer a tenant to another unit within the same "project" but onto a different contract the owner must first process a termination (MAT 65 Code CE- Subsidy contract expired or combined with a renewal contract). This is then followed by an Initial Certification. Because this tenant is still in the same project, they are not subject to admission and eligibility requirements.

Note for #3: If the IC changes the next recertification date in the reporting software; change it back to the former recertification anniversary date.

Annual Recertification (Code **AR**). Use this code for regularly scheduled recertifications. Please see 4350.3 REV-1: Chapter 7, Section 1.

Interim Recertification (Code **IR**). Use for any changes in family circumstances (e.g., income, deductions, and household composition) with an effective date which is different than the Annual Recertification effective date.

Codes CR and CS (converting a tenant from RAP or Rent Supplement to Section 8) are no longer being used. If a tenant is converting from RAP or Rent Supplement to Section 8, first submit a termination from RAP or Rent Supplement followed by an Initial Certification to Section 8. On the Initial Certification, show the Previous Subsidy Type (Item 20) as RAP or Rent Supplement.

(MAT 10 Section 2 Field 13 4350.3 REV-1: Chapter 7, Sections 1 & 2)

**NOTE:** If a Gross Rent Change or Unit Transfer has the same effective date as a full (re)certification for the tenant, include the new GRC and/or UT information as part of the full (re)certification.

Note: This Item is also known as the Transaction type.

## In OneSite

The certification type is typically determined during the creation of the certification and if the type is incorrect (and the certification is NOT reported to HUD yet) the user should delete the certification and create a new one of the correct type. However there are some options to edit the certification type within OneSite.

[Back to the 50059](#)

Enter the unit number in which the household is residing on the effective date of this HUD-50059. Note: If each unit number is used only once within a project, enter unit numbers (e.g., 201, 402). ### Item 29 Contract Rent

[Back to the 50059](#)

Enter the rent HUD or the Contract Administrator has approved for this unit type. The Contract Rent is the Section 8/RAP Contract Rent, the Section 236 Basic Rent, the Section 221 (d) (3) BMIR Contract Rent, or the Rent Supplement Unit Rent, as applicable. **Note: This amount cannot be zero.**

For the Section 202 PAC or PRAC and Section 811/PRAC projects enter the operating rent (operating cost). If all of the utilities are included in the rent, enter the operating rent (operating cost). If the tenant pays utilities separately, enter the gross rent minus the HUD approved utility allowance to arrive at the operating rent (operating cost).

(MAT 10 Section 2 Field 57) Approved HUD-92458 (Rent Schedule)

### In OneSite

## Item 96 Household Citizenship Eligibility

[Back to the 50059](#)

Enter one of the following codes for tenants with a Project MI date on or after 6/19/95, and for all in-place tenants no later than 6/19/96.

The valid codes for this Item are:

N = Subsidy Type is **not** subject to the Non-Citizen Rule

E = All members of the family are eligible under the Non-Citizen Rule. The family receives full assistance. No members have a PV status

C = Continued Assistance. The mixed family, resident on/before June 19, 1995 qualifies for continuation of full assistance under Non-Citizen Rule.

P = Prorated Assistance. The family qualifies for and receives Prorated Assistance under the Non-Citizen Rule because only some of the family members are eligible for assistance.

Note: A member with an eligibility code of PV will be counted as eligible. A member with a code of ND will be counted as ineligible.

F = Full Assistance while the verification of eligibility is pending. A family is in this status if all members are eligible for assistance or have submitted documentation but the verification process is not yet complete (Citizenship Eligibility Code = PV) when the family moves in. At least one member must be eligible. If any member is ineligible or has an ND eligibility code, use the Prorated Assistance Code (P), not Full Assistance.

T = Temporary Deferral of Termination. The family, currently receiving full assistance, is found to be ineligible for assistance under the Non-Citizen Rule, or the family qualifies for Prorated Assistance and elects Temporary Deferral of Termination status instead. Tenants with this code receive full assistance. This code should only be used for tenant households meeting the exception to the 18 month deferral period. Also, refer to the 4350.3 REV-1: Paragraph 3-12.Q.3 NOTE: If the family receiving assistance on June 19, 1995 includes a refugee under Section 207 of the Immigration and Nationality Act, or an individual seeking asylum under Section 208 of that Act, a deferral can be given to the family and there is no time limitation on the deferral period. The 18 month deferral limitation does not apply.

### Item 103 Medical Expense

[Back to the 50059](#)

Medical expenses are permitted for elderly and disabled families. A family is determined to be elderly or disabled if the Head(H), Spouse(S) or Co-Head(K) is at least 62 years or older on the effective date of (re)certification or is a person with disabilities.

If medical expenses are determined to be an allowable deduction, include the **unreimbursed** medical expenses for all family members (see Item 53). If not, enter zero.

Medical expenses include all **unreimbursed** expenses the family anticipates to incur during the 12 months following the (re)certification. The O/A may use the ongoing expenses the family paid in the 12 months preceding the (re)certification to estimate anticipated medical expenses.

(MAT 10 Section 2 Field 52 4350.3 REV-1: Paragraph 5-10.D, Exhibit 5-3)

## Item 104 Medical Deduction

[Back to the 50059](#)

Enter zero in this Item if the amount in Item 103 is zero.

If Item 101 (Disability Expense) is zero, subtract Item 100 (3% of Income) from Item 103 (Medical Expense) and enter the amount in this Item.

However, if an elderly or disabled family has both **unreimbursed** medical expenses and eligible disability expenses, a special calculation is required to ensure that the family's 3% of income expenditure is applied only one time. Choose the applicable situation below to determine the amount entered.

If Item 101 is greater than or equal to Item 100, enter the amount from Item 103 in this Item.  
(See 4350.3 REV-1: Paragraph 5-10.D.5)

### OR

If Item 101 is less than Item 100, use the following calculation to determine the amount to be entered in this Item...

(Item 103 + Item 101) – Item 100 (See 4350.3 REV-1: Paragraph 5-10.D.9)

Note: If the result is negative, enter zero in this Item.

This is calculated automatically based on the values appearing in the [3% of Income](#) field and the [Disability Expense](#) field and the [Medical Expense](#) field.

- If the 3% of Income (100) has already been deducted from the Disability Expense (101) then the full Medical Expense (103) will appear as the Medical Deduction (104).

### Item 108 Total Tenant Payment

[Back to the 50059](#)

The Total Tenant Payment (TTP) is the amount a tenant is expected to contribute for rent and utilities. The TTP for Section 8, PAC, PRAC, RAP, and Rent Supplement properties is based on the family's income. For Section 236 and BMIR tenants, enter zero or leave blank.

**For Section 8, RAP, PRAC, PAC the Total Tenant Payment (TTP) is the greater of:**

- ☐ 30% monthly adjusted income;
- ☐ 10% monthly gross income;
- ☐ [Welfare rent](#) (welfare recipients in as-paid localities only); or
- ☐ \$25 minimum rent (Section 8 only).

Note: A property may only admit an applicant to [Section 8, RAP, and PAC](#) programs, if the TTP is less than the gross rent. This does not apply to the PRAC program. In some instances under the PRAC program, a tenant's TTP will exceed the PRAC operating rent (gross rent).

**For Rent Supplement:**

The Total Tenant Payment (TTP) is the greater of:

- ☐ 30% of monthly adjusted income; or
- ☐ 30% of gross rent.

Note: For MIs and ICs, the amount of Rent Supplement assistance cannot be any less than 10% of the gross rent. If the initial amount of Rent Supplement assistance is less than 10% of the gross rent, the tenant is not eligible for Rent Supplement Assistance.

(MAT 10 Section 2 Field 64 4350.3 REV-1: Paragraph 5-25, Figure 5-6, Exhibit 5-8)

Note: For RAP, Rent Supp. and Section 8 tenants, if the Household Citizenship Eligibility, Item 96, is "P", the Assistance Payment (AP), Total Tenant Payment (TTP), Tenant Rent (TR) and Utility Reimbursement (UR), if applicable, will be pro-rated amounts. **Pro-ration procedures are listed after the instructions for Item 118.**

## In OneSite

- This is automatically calculated based on the HUD calculation guidelines.

### Item 109 TTP Before Override

[Back to the 50059](#)

If this is a rent override situation (Item 114, Rent Override set to “Y”) and the rent calculation involves TTP, fill with the TTP that would normally be calculated without the override. Otherwise, leave blank. See 2.0.2.D MAT Guide: Chapter 4, Section 4.30, Rent Overrides, and Appendix K.

**NOTE:** For a RAD rent phase-in, on the first certification in which the TTP Before Override equals the Total Tenant Payment, enter the amounts in this Item and Item 32. The fact that TTP Before Override = Total Tenant Payment signals that the phase-in is complete. For future transactions (those with effective dates after the one that ends the rent phase-in), leave this Item and Item 32 blank.

## Instructions for TRACS 202D form HUD-50059 (06/2014)

### Item 110 Tenant Rent

[Back to the 50059](#)

For Section 8/RAP/Rent Supplement/Section 202/162 PAC, Section 202 PRAC and Section 811 PRAC tenants: Tenant Rent (TR) is the portion of the TTP the tenant pays each month to the owner for rent. When utilities are paid by the property, the Tenant Rent (TR) will equal the Total Tenant Payment (TTP), Item 108. If all, or part, of the utilities are paid by the tenant, the TR and TTP will not be the same amount. The TR will equal the TTP (Item 108) minus the Utility Allowance (Item 30). If the Utility Allowance (UA) is more than the TTP, enter zero in this Item and complete Item 111 (Utility Reimbursement).

For Section 236 and BMIR tenants: Refer to HUD Handbook 4350.3 REV-1: Exhibit 5-8 for calculating Tenant Rent

(MAT 10 Section 2 Field 65 4350.3 REV-1: Paragraph 5-26 and 5-29)

Note: For RAP, Rent Supp. and Section 8 tenants, if the Household Citizenship Eligibility, Item 96, is "P", the Assistance Payment (AP), Total Tenant Payment (TTP), Tenant Rent (TR) and Utility Reimbursement (UR), if applicable, will be pro-rated amounts. See Pro-ration procedures.

### In OneSite

This is automatically calculated in OneSite based on the TTP and the UA.

**Total Tenant Payment – Utility Allowance = Tenant Rent** (What the resident will **"Really"** pay.)

**\*\*\*Note: If the Utility Allowance is a larger value than the Total Tenant, then the Tenant Rent will be a 0 and there will be a Utility Reimbursement value\*\*\***

[Back to the 50059](#)

---

### Item 111 Utility Reimbursement

[Back to the 50059](#)

If the Utility Allowance (Item 30) exceeds the Total Tenant Payment (Item 108), subtract the TTP from the Utility Allowance and enter the difference. For Section 236, BMIR and Market tenants, enter zero or leave blank.

(MAT 10 Section 2 Field 66 4350.3 REV-1: Paragraph 5-26.C)

Note: For RAP, Rent Supp. and Section 8 tenants, if the Household Assistance Status Code, Item 96, is "P", the Assistance Payment (AP), Total Tenant Payment (TTP), Tenant Rent (TR) and Utility Reimbursement (UR), if applicable, will be pro-rated amounts. See Pro-ration procedures.

### In OneSite

This is automatically calculated in OneSite based on the TTP and the UA.

If the Utility Allowance is a larger value than the Total Tenant Payment, then the Tenant Rent will be a "0" and there will be a Utility Reimbursement value. This value represents a check that the resident will receive every month that HUD intends be applied to Utility costs. (In OneSite this is commonly represented with a UTILCKGVN transaction)

### Item 112 Assistance Payment

[Back to the 50059](#)

Enter the amount the owner bills HUD on behalf of the tenant living in a Section 8, RAP, Rent Supplement, 202/811 PRAC, or PAC property. To determine this amount, subtract the TTP (Item 108) from the Gross Rent (Item 31).  $GR - TTP = AP$ . If the TTP is greater or equal to the GR, enter zero in this Item, except for a PRAC tenant. The assistance payment (AP) for a PRAC tenant is the Operating Rent minus the TTP. Enter the AP amount, even if the amount is a negative number (e.g.: -75 or (75)). For all other tenants, enter zero or leave blank.

(MAT 10 Section 2 Field 67 4350.3 REV-1: Paragraph 5-26.B)

Note: For RAP, Rent Supp. and Section 8 tenants, if the Household Citizenship Eligibility, Item 96, is "P", the Assistance Payment (AP), Total Tenant Payment (TTP), Tenant Rent (TR) and Utility Reimbursement (UR), if applicable, will be prorated amounts. See Pro-ration procedures.

### In OneSite

This is calculated automatically based on the Contract rent and Utility Allowance minus the Total Tenant Payment value. This number represents the amount of money HUD will pay for this household's assistance for the whole month. (\*\*The 50059 does not prorate values for mid-month certifications but will always show the full month's value\*\*)

**Contract Rent + Utility Allowance (if any) - Total Tenant Payment = Assistance Payment**

Then, it is either automatically populated depending on the type of Welfare Rent, or is selected during the certification process on page 2 “Household Review” of the certification wizard. Click the “Welfare rent” button and confirm the details and save. (This is only if the Welfare rent type is based on the number of members)

The screenshot shows the 'Incomes' section of the form. A button labeled 'Welfare rent' is highlighted with a red box. A dialog box titled 'Welfare rent - PETRA CALDERON30-1S' is open, showing the 'Number of members' as 1 and the 'Schedule' as 'Paid per member'. The dialog box also has 'Save' and 'Cancel' buttons.

If this button does not appear, or if you need to change the welfare rent values for Flat Rate or Bedrooms:

- Setup / Affordable / Welfare rent type
- Edit or “New”
- Input the method this property is using to determine the Welfare rent values.
  - Not as Paid (**No** welfare Rent, selecting this will remove the option)
  - Flat Rate
  - Number of Bedrooms
  - Number of Family Members

The 'Setup - Welfare rent type' dialog box shows the 'Effective date' as 01/01/2007. The 'Type' is set to 'Number of family members'. The 'Description' is 'Number of family members'. A table shows the welfare rent values for 1 to 16 members.

### Item 117 Eligibility Check Not Required

[Back to the 50059](#)

#### Applies only to Move-in or Initial certifications.

If this certification is not a MI or IC or Eligibility is being checked, leave blank. Otherwise, enter "Y", meaning Eligibility is not required to be checked on this certification.

Examples of situations where the use of this designation is appropriate:

1. If a tenant is transferred to a unit in a comparable project as a reasonable accommodation (4350.3 REV-1: Paragraph 2-32.C.1.a), eligibility is not checked on Move-in certification or in response to VAWA for Section 8 housing.
2. For a contract combination, the tenant is first terminated from the old contract (Termination Code = CC) and an Initial Certification is done for the new contract. Eligibility is not checked on the Initial Certification.
3. Under the 4350.3 REV-1: Paragraph 7-12.B.3, a tenant who fails to respond to a notice to provide information about changes in composition or income must be terminated (Termination Code = RI). When the tenant submits the information, their rent must be reduced (IC). Eligibility is not checked on this Initial Certification.
4. For 100% Section 8 properties. If the project is 100% subsidized, in the case where an in-place tenant's assistance was terminated due to an increase in income and whose income decreases to where they are again eligible for assistance, the tenant should be recertified and receive the assistance. The tenant's income eligibility was determined at Move-in and does not have to be determined again.
5. PDD—Presidentially Declared Disaster
6. Other

These are not Eligibility Waivers, as indicated for Item 116.

### Item 118 Extenuating Circumstances Code

[Back to the 50059](#)

Leave blank if the tenant has signed this (re)certification. If the tenant has not signed this (re)certification, this Item must be filled in with one of these codes.

1 = Medical

2 = Late annual (re)certification due to accommodation or extenuating circumstances.

3 = Late annual (re)certification due to owner/agent delay

4 = Late annual (re)certification due to third party delay (For example a Guardian)

5 = Military Deployment

6 = Eviction In Progress. Must be for a valid HUD Handbook reason.

7 = Court order

8 = No Signature Required (Retroactive GR done after a MO or a GR correction to a previously transmitted 50059 where the only change is the GR modification of the contract rent and where none of the TTP, Tenant Rent, or Utility Allowance changes). See 202D MAT Guide: Chapter 7, Paragraph 9-8

9 = No signature required for 60 days (based on anticipated voucher reported on date). An example would be a retroactive GR causing a correction to a previously transmitted 50059 and where any of the TTP, Tenant Rent or Utility Allowance changes. A signature is required but the cert may be transmitted immediately and the signature collected within 60 days.

10 = Other

When the tenant is able to sign, submit a corrected (re)certification with the tenant's signature and leave this Item blank.

Note: With respect to Code 8—this is to be used whenever a full cert for a moved-out tenant is corrected by a GR—even in cases where a code 9 would normally be used. This is because a tenant signature will never be obtained.

Note: A code of "Y" is allowed when correcting a (re)certification originally created under TRACS 202C or earlier with a "Y" in this Item.
