

Tax Credit

CONCEPTS

INTRODUCTION

Brief HISTORY

- The **Low Income Housing Tax Credit (LIHTC)** Program was created with the passage of the Tax Reform Act of 1986. The Act included Section 42 of the Internal Revenue Code
- This program is meant for people on fixed or lower incomes and **allows these individuals an opportunity for quality housing at an affordable price**
- This program has become immensely popular with Congress as an **efficient means of providing affordable housing**

Tax Credits VS. HUD PROGRAMS

- Residents are **NOT subsidized** by the Tax Credits Program.
- Layered subsidy does not come from Tax Credits.
- The Tax Credits do not fund new construction or rehab
- The program is **monitored by an agency in each state** causing differences from state to state. **Every state is different** and things are often changing.
- The owner will usually bring in an investment partner who actively monitors the property and its adherence to the rules
- In return for a tax credit (tax break), the owner must at a **minimum**

40% of the units in the property serve households at or below 60% of AMI

20% of the units servicing household at or below 50% of AMI

The 2 RULES

There are 2 fundamental rules that define Tax Credit programs:

1. Qualification

- Households must be at or below the AMI (Area Median Income)

2. Rent Restriction

- The tenant rent amount must be at or below the maximum rent as defined by the set-aside.
- Properties typically charge the full max rent (minus the utility allowance)
- If a household is layered with a HUD or Rural Housing program, the rent calculated by those programs are usually used.

The PLAYERS

- **The IRS:** Oversees the Program for Congress. The basic functions are to monitor the state agencies & make determinations for compliance.
- **Allocation Agency:** Appropriates the credits and monitors compliance (Ex: WHEDA)
- **Owner / Investor:** That builds or rehabs a property under the Program rules and who receives the allocation of credits.
- **Property Management Entity:** That oversees the property management and day to day operations (PMC)

PROGRAMS, SET - A S I D E S
A N D A P P L I C A B L E
F R A C T I O N S

The Main PROGRAMS

The Main 3 Types used in OneSite

- **LIHTC (Low-Income Housing Tax Credit):** The IRS standard. All Tax Credits properties must meet the minimum set-aside requirements for this program. Most sites will have LIHTC, but if they have more restrictive state programs they may not use LIHTC, because they are already meeting the goals of this program by meeting the 'tighter' rules from the state programs.
- **HOME:** (Home Investment Partnerships Act program) This program type provides grants to state and local governments for use in properties that increase home ownership and affordable housing opportunities for low and very low income households.
- **Tax Exempt Bond:** Housing credit programs can also be funded by market rate or below market rate loan programs such as the Tax Exempt Bond program.

Other PROGRAMS

Other Programs (less common)

- **AHDP:** Affordable Housing Disposition Program
- **HDF:** Housing Development Fund
- **Other:** This is a user-defined Program.
- **HTF** (Texas)
- **PennHOMES** (PA)
- **SAIL** (Florida): State Apartment Incentive Loan Program
- **MMRB** (Florida): Multi-family Mortgage Revenue Bond
- **Market:** This is not an actual program but is necessary at properties that are not 100% low income in order to accurately measure compliance. Will create a TIC for market renters which is essentially a placeholder

The SET - ASIDES

A Set-Aside is basically a ‘goal’

The Set-Aside format is: 30/60

30: represents the % of units on the property that should meet this goal

60: represents the % of the Average Median Income (AMI) that the household income must not go over to qualify.

Ex. In order for a 3-member household to initially qualify for a 60% program, they cannot exceed \$32,340.

60% Low income limit	\$ 25,140.00	\$ 28,740.00	\$ 32,340.00	\$ 35,880.00	\$ 38,760.00	\$ 41,640.00	\$ 44,520.00	\$ 47,400.00
50% Very low limit	\$ 20,950.00	\$ 23,950.00	\$ 26,950.00	\$ 29,900.00	\$ 32,300.00	\$ 34,700.00	\$ 37,100.00	\$ 39,500.00

The most common LIHTC set-asides are the 40/60 and 20/50:

40/60 = 40% of the units in a property must be at or below the 60% AMI

20/50 = 20% of the units in a property must be at or below the 50% AMI

Programs VS. SET - ASIDES

LIHTC Program

40 / 60%

20 / 50%

Program- The program is based on either Section 42 of the Internal Revenue Code (LIHTC) or state-specific regulations (SAIL, BOND, HOME). It requires properties to meet at least one minimum set-aside. A site can have multiple programs depending on their state requirements.

A single site can have multiple programs.

HOME Program

40 / 60%

10 / 30%

Set-Aside- A set-aside is the minimum number of units that must be rented to qualified Housing Credit Households such as 40/60 or 20/50. Each program can have multiple set-asides depending on different state requirements.

A single program can have multiple set-asides.

Ex: LIHTC Program could have both a 50% set-aside and a 60% set-aside.

Applicable FRACTION

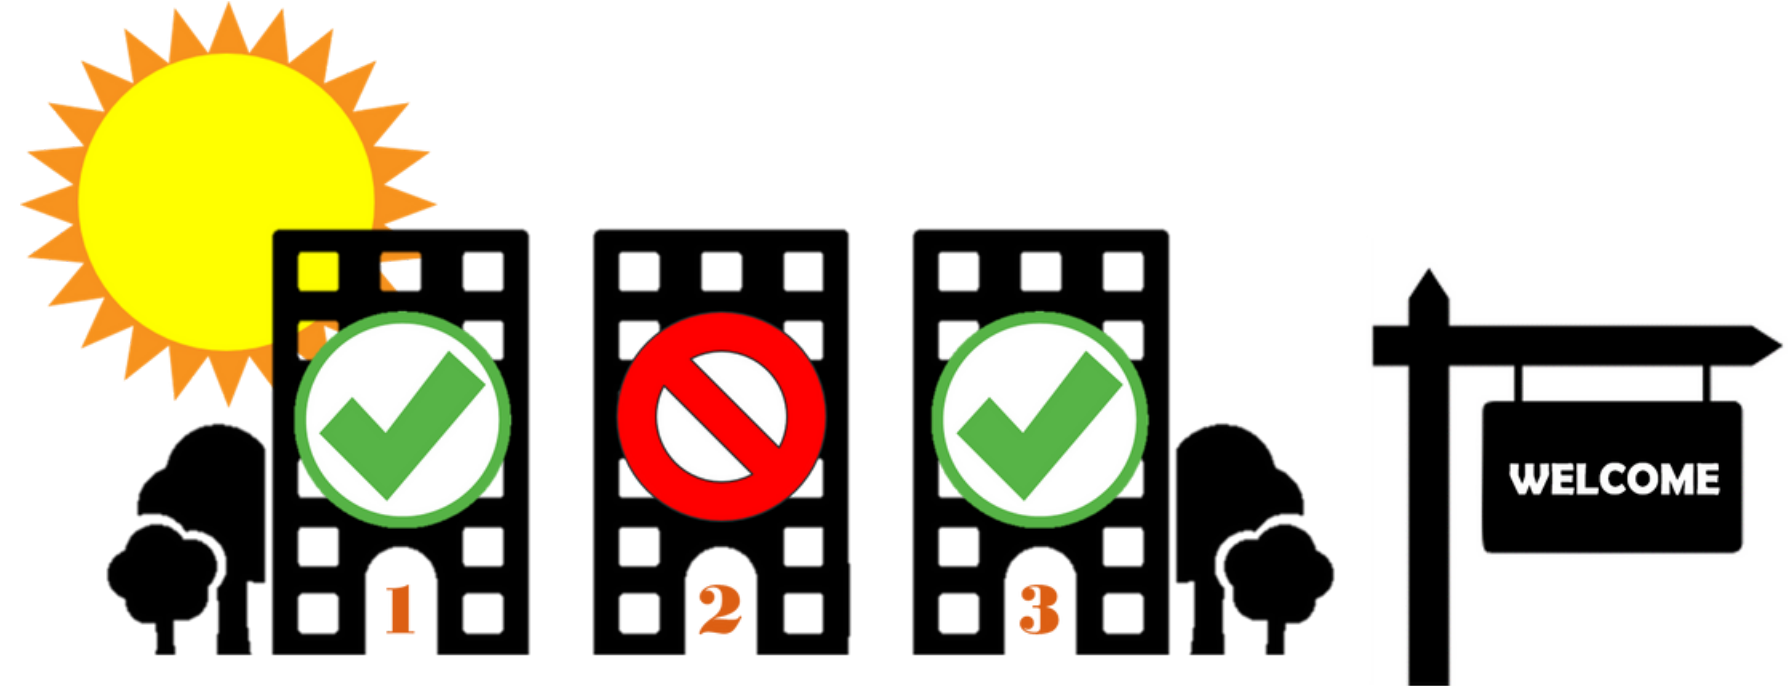

Why do Tax Credit properties need buildings?

- Tracking compliance **per building** is an important aspect of Tax Credit property management which is why we require the use of buildings in OneSite Tax Credits.
 - HUD properties that add Tax Credits will likely need to send an **Address Renumber**.
 - The Applicable fraction (40/60 or 20/50) is the actual percentage of units within each building that are rented to Housing Credit qualified households.
 - This means that with a 40/60 set-aside; 40% of all units need to be at or below 60% of the Area Median Income (AMI) in **each building**!
 - In many cases, a single household can be assigned to multiple Set-asides as long as they are qualified. (ex. If you qualify for 20/50, you would also qualify for 40/60)
-

Meeting PROPERTY GOALS

Example: Sunrise Apartments is a 3-building property that is participating in the LIHTC program with 2 set-asides, 20/50 and 40/60. Each building has 16 units.

Building 1 has 4 units that are assigned to the 50% set-aside and 7 units assigned to the 60% set-aside.

- $4 / 16 = 25\%$ (meets the goal of 20%)
- $7 / 16 = 43\%$ (meets the goal of 40%)

Building 2 has 3 units that are assigned to the 50% set-aside and 6 units assigned to the 60% set-aside.

- $3 / 16 = 19\%$ (does not meet the goal of 20%)
- $6 / 16 = 38\%$ (does not meet the goal of 40%)

Building 3 has 4 units that are assigned to BOTH the 50% and 60% set-aside and 3 units assigned to the 60% set-aside.

- $4 / 16 = 25\%$ (does meet the goal of 20%)
- $7 / 16 = 43\%$ (does meet the goal of 40%)

NAUR AND UVR

Unit Vacancy Rule

(UVR)

- If a tax credit qualified unit becomes vacant, and the last occupant had been a qualified, low-income Household, the **vacant unit continues to be considered a tax credit qualified unit**, as long as the next available unit of comparable size or smaller is rented to a **qualified Household**. This means the vacant unit can continue to count towards the set-aside's compliance requirement as long as the next rented unit is occupied by a qualified household.
- If the **next unit is not occupied by a qualified household**, they will get a **warning in OneSite**, but they may be ok to move them in if they have made a reasonable effort to locate a qualified family member. If they move in the unqualified resident and have not made an acceptable effort to locate a qualified applicant, they can lose their Housing Credits.

Next Available Unit Rule (NAUR)

- The **Next Available Unit Rule** states that if a unit becomes an **over-income unit** (tenants income goes above 140%), that unit can **continue to be treated as a Qualified Unit** only as long as it remains **rent-restricted** and the **next available comparable unit is occupied by a qualified household**.

The over-income unit is considered as a qualified unit as long as:

- The site doesn't charge **more than the max rent** to the over-income household.
- The **next move in** has to be for a **qualifying household**.

Basically, if a tenant's income is greater than 140% of the AMI, then your next move in has to be for a qualifying household or you are violating this rule.

Tenant ELIGIBILITY

CERTIFICATIONS

Tenant ELIGIBILITY

- **Income limits** for qualification are based on the number of members in a Household
- **Income, Assets, and Expenses** are determined by the “HUD” standards in the **4350.3**
- Many management companies have a **minimum income**
- If residents have a financial change the rent they pay will likely **not** go down (Unlike HUD)
- Annual Recertification are **not** always required
- Tax Credit properties may offer **Utility Allowances**
- Household information will appear on an Initial **Tenant Income Certification (TIC)**
- The TIC does **not** calculate rent based on income
- The TIC form can vary among programs and states.
- **NCSHA** is the federal version of the TIC.

Tenant Income Certification (TIC)

- Unlike HUD housing, the TIC is **NOT** used to determine rent based on income. It's only used to display that the resident is qualified.
- **Rent** is determined by set-aside rules, HUD program, or Rural Housing Program
- HUD / RH rent tends to be lower than Tax Credit Max rent.
- The TIC is the form that shows the **household's specific qualification information** and is signed by the household indicating the information is correct

TIC RESOURCE

The training team has developed a **handy** resource that will show the regulations involved for every field on the NCHSA TIC and where the information may be changed in OneSite

- View the “TIC instructions.pdf” file
- Locate the field on the TIC
- Click on the link
- The first line is the TIC instructions from NCHSA
- The “In OneSite” section shows where to find this information in OneSite
- When done, click Back to TIC to return to the form.

MAX RENT

Max Rent

LIHTC

Maximum Allowable Rent or “**Max Rent**” is the **highest** rent a Tax Credit property can charge a resident (on a set-aside) per bedroom size.

- **TR + UA =< Max Rent**
- The standard Max Rent is **LIHTC**
- In general, the **HUD** regulations take precedent over a Tax Credit Program.
- With 202D, it is possible to use the “**Rent Override**” function to lower tenant rent if the TC Max rent is lower than the HUD calculated Tenant Rent.

Calculating LIHTC MAX RENT

There are TWO steps to calculate Max Rent:

1. Determining Income limit to use:

- Bedroom Size x 1.5

Instead of using the number of household members, the income limit is selected by assuming an average of 1.5 members per bedroom

Example: A household residing in a 1 bedroom unit qualifies at the 50% income limit

- (Bedroom Size x 1.5) or for a 1 BR would use the 1.5 Income limit.
- If the 1 person limit is \$34,250 and the 2 person is \$39,150, then the limit for max rent is:
- $(\$34,250 + \$39,150) / 2 = \$36,700$

	1	2	3	4	5	6
140%	\$ 95,900.00	\$ 109,620.00	\$ 123,340.00	\$ 136,920.00	\$ 147,980.00	\$ 158,900.00
100% Median Income	\$ 68,500.00	\$ 78,300.00	\$ 88,100.00	\$ 97,800.00	\$ 105,700.00	\$ 113,500.00
95% BMIR limit	\$ 65,075.00	\$ 74,385.00	\$ 83,695.00	\$ 92,910.00	\$ 100,415.00	\$ 107,800.00
80% Low income limit	\$ 54,800.00	\$ 62,640.00	\$ 70,480.00	\$ 78,240.00	\$ 84,560.00	\$ 90,400.00
60% Low income limit	\$ 41,100.00	\$ 46,980.00	\$ 52,860.00	\$ 58,680.00	\$ 63,420.00	\$ 68,100.00
50% Very low limit	\$ 34,250.00	\$ 39,150.00	\$ 44,050.00	\$ 48,900.00	\$ 52,850.00	\$ 56,700.00
30% Extremely low limit	\$ 20,550.00	\$ 23,500.00	\$ 26,450.00	\$ 29,350.00	\$ 31,700.00	\$ 34,100.00
Moderate (80% Low + \$5,500)	\$ 60,300.00	\$ 68,140.00	\$ 75,980.00	\$ 83,740.00	\$ 90,060.00	\$ 96,000.00

Calculating LIHTC MAX RENT

2. Calculating the Max Rent:

- Income Limit (determined in step 1) x 30% / 12

$$\$36,700 \times 30\% / 12 = \$917$$

- If the property is pre-1980, then the actual family size is used for the income limit instead of the imputed family size calculated by the bedroom size x 1.5
- The standing rounding method for LIHTC is to **drop all cents to the whole dollar**. In rare circumstances, a different rounding method is used so this **can be changed in program setup in OneSite**.
- A 0 bedroom unit (efficiency) is calculated as a 1 bedroom income limit.

Example #2

LIHTC MAX RENT

Calculate the max rent for a household living in a 2 bedroom unit on the 60% set-aside.

1. Determine Which Income Limit to Use:

- 2 Bedroom X 1.5 = 3 Members
- The 60% income limit for a 3 member household is \$52,860

2. Calculate the Max Rent:

- $\$52,860 \times 30\% / 12 = \$1,321.50 = \$1,321.00$

Maximum Rent Limit for this unit: \$		1,321.00
Unit Meets Rent Restriction at:		☒ 60% ☐ 50% ☐ 40% ☐ 30% ☐ _____ %

	1	2	3	4	5	6	7	8
140%	\$ 95,900.00	\$ 109,620.00	\$ 123,340.00	\$ 136,920.00	\$ 147,980.00	\$ 158,900.00	\$ 169,820.00	\$ 180,740.00
100% Median Income	\$ 68,500.00	\$ 78,300.00	\$ 88,100.00	\$ 97,800.00	\$ 105,700.00	\$ 113,500.00	\$ 121,300.00	\$ 129,100.00
95% BMIR limit	\$ 65,075.00	\$ 74,385.00	\$ 83,695.00	\$ 92,910.00	\$ 100,415.00	\$ 107,825.00	\$ 115,235.00	\$ 122,645.00
80% Low income limit	\$ 54,800.00	\$ 62,640.00	\$ 70,480.00	\$ 78,240.00	\$ 84,560.00	\$ 90,800.00	\$ 97,040.00	\$ 103,280.00
60% Low income limit	\$ 41,100.00	\$ 46,980.00	\$ 52,860.00	\$ 58,680.00	\$ 63,420.00	\$ 68,100.00	\$ 72,780.00	\$ 77,460.00
50% Very low limit	\$ 34,250.00	\$ 39,150.00	\$ 44,050.00	\$ 48,900.00	\$ 52,850.00	\$ 56,750.00	\$ 60,650.00	\$ 64,550.00

Other Methods

(NON LIHTC)

Max rent can be determined in different ways for non-LIHTC set-asides:

- **Percentage of Maximum Income** (this means the site will also have a Maximum Income for the set-aside defined in setup).
- **Percentage of Total Household Annual Income**
- **Percentage of Median Income** (like LIHTC, but with editable calculating methods)
- **Max Rent Schedule by Floorplan** (predetermined values from the state administrator)

Note: There are also various options for **Minimum Rent** but these values are rarely entered. The idea is to ensure the residents can afford to pay the full rent for the unit.

Determining TENANT RENT

There are 3 options for determining tenant rent.

- **Max Rent** minus **Utility Allowance**

Max Rent of \$938 – UA of \$73 = Tenant Rent of \$865

- **Tenant Rent** is determined by another program type such as Section 8, Rural Housing, or a state voucher program.
- **State Agency Determination** (usually another set-aside coupled with LIHTC or a state voucher program)

Note: Tenant Rent calculations from Federal or State programs may result in a rent that is greater than the Max Rent from the set-aside. Tax Credits is considered **extra** or like a 'bonus' over the Affordable or Rural Housing Programs and the rules for these programs will always override the rules for Tax Credits.

REPORTING

Electronic REPORTING

Available state reports

Certification Online System
NAHMA Unit Status Report
NAHMA Unit Status Report 2.0
NAHMA Unit Status Report 3.1
NAHMA Unit Status Report 4.0
NAHMA Unit Status Report 5.0
NAHMA Unit Status Report 6.0
Texas Unit Status Report
Washington Unit Status Report

- Unlike HUD certifications, TICs are **not** sent to an Allocation Agency on a **monthly basis**.
- Tax Credit properties must submit this data to their state agency on an **annual** or **quarterly** basis **depending on the state requirements**.
- The data from the TICs are compiled into a standard or upload-capable report.
- XML formats are different standards depending on which states use which type.
- These reports are used by the agencies to make sure the properties are maintaining compliance.
- "TXCR-4010: Tax Credits Editing Electronic Reports" covers editing details and common issues.

Reporting AGENCIES

Some of the common software types that agencies use to receive and store electronic reports from clients:

- **MITAS** (NAHMA 3.1)
- **WHEDA** (NAHMA 3.1) (Wisconsin)
- **Authority Online** (NAHMA 2.0) (Alabama)
- **Procorem** (NAHMA 3.1) (Kansas)
- **TDHCA (Texas USR)** (Texas)
- **WBARS (Washington USR)** (Washington)

PROPERTY SETUP OPTIONS

Choosing THE TIC

Setup > Affordable > Tax credits > Tenant income certifications

- Choose a Tenant Income Certification or Addendum. This is state specific and the site may use **more** than one. The site may also need to use the Certification Worksheet. The LIHTC default is **NCHSA**.
- **Note** the “Default form to view”, this will always appear first when the TIC tab is selected.

The screenshot shows a web application window titled "OneSite -- Webpage Dialog". The main heading is "Setup - Tenant income certification selection". In the top right corner, there is a user ID "122.090.707.005" and a help icon. The interface is divided into two main sections: "Available tenant income certifications" on the left and "Selected tenant income certifications" on the right. The "Available" list includes: Florida, Georgia Income Certification (updated 12/06), Georgia Self Certification, Georgia URFA-DCA Tenant Income Certification, Hawaii Self Certification, HUD Tenant Data Collection, HUD Tenant Data Collection (with signature), Idaho, and Idaho Self Certification. Between the lists are two buttons: "Select" with a right arrow and "Remove" with a left arrow. The "Selected" list currently contains "Illinois" and "Arizona". At the bottom left, there is a "Default form to view" label and a dropdown menu currently set to "Illinois". At the bottom right, there are "Save" and "Cancel" buttons.

Available tenant income certifications	Selected tenant income certifications
Florida	Illinois
Georgia Income Certification (updated 12/06)	Arizona
Georgia Self Certification	
Georgia URFA-DCA Tenant Income Certification	
Hawaii Self Certification	
HUD Tenant Data Collection	
HUD Tenant Data Collection (with signature)	
Idaho	
Idaho Self Certification	

Default form to view: Illinois

TIC Reporting OPTIONS

Example:

Property has 50% and 60% of median income LIHTC set-asides.

- 60% income limit is: 25,500, so 140% is 35,700
- 50% income limit is: 21,250, so 140% is 29,750

On page 2 section V for the field “Current income limit X 140%”

- When Highest is selected it will show the 60% calculation or 35,700
- When Lowest is selected it will show the 50% calculation or 29,750

Onesite -- Webpage Dialog

Setup - TIC reporting options 122.090.704.095 ?

Select the options for reporting program information on the tenant income certification form

Program name	Program type	Report on TIC
LIHTC	LIHTC	☒
Home 40	HOME	☒

Page 1 of 1

Recertification income options

Select the option for the 'over-income' amount that will be reported on the TIC (page 2, part V of the NCSHA best practices TIC for example). This will not affect income limit per family size or maximum rent

Use the recertification income limit for the set-aside with:

☒ Highest (least restrictive) income eligibility requirement

☐ Lowest (most restrictive) income eligibility requirement

Based on:

☒ Only the set-asides that have been selected on a certification

☐ All set-asides

AR Dates AND NOTICES

Setup > Affordable > Tax credits > Customize annual recertification due dates

- Annual dates can be the first day of the anniversary month (like HUD), the exact day of move in, or a specific date property wide.
- AR notices, get 4 notices (120, 90, 60, 30) and the dates they generate are fully customizable.

The screenshot shows a web browser window titled "OneSite -- Webpage Dialog". The address bar displays "122.090.710.005". The main content area is titled "Setup - Customize annual recertification due dates".

Annual recertifications are due

- ☐ Exactly 365 days from effective date of previous certification.
- ☐ On the first of the month that is 365 days from the effective date of the previous certification.
- ☐ Make all annual recertifications on the property due at the same time annually on a specific date.

Annual recertification notices

Customize the annual recertification day ranges

Initial notice	121 to	145	days
Second notice	91 to	120	days
Third notice	61 to	90	days
Fourth notice	31 to	60	days
Due (no notice)	0 to	30	days

At the bottom right, there are "Save" and "Cancel" buttons.

Income LIMITS

Setup > Affordable > Income limits

- Income limits are setup in the same method as HUD properties, but unlike HUD properties, each program can have its own set of income limits.
- Just like HUD income limits, the site sets up one income limit entry in setup and then edits it as the values change over time.
- Properties would have to update each income limit separately. (Accessible from the Administration Tab in OneSite.)

OneSite -- Webpage Dialog

Setup - Income limits 122.090.600.005 ?

Demographics

Original household member

- Applies to households associated with the LIHTC program and indicates whether this person was an original household member on the Initial (new MI) or Transfer certification.

Income qualified for LIHTC

- At move-in or transfer, if the household is income qualified, OneSite flags all household members as such, regardless of whether a member contributed any income.
- At recertification, the settings can change if new members are added. That is, OneSite will flag new members as income qualified if the household remains so, or it will clear the field of ALL members if the household goes over income.

The screenshot displays the 'Demographics' tab of a web form. The 'Identification' section includes fields for Date of birth (xxxxxx1956), SSN (xxxxx2018), and Alien registration, with 'Change' links and 'Age 60' displayed. The 'General demographics' section includes dropdowns for Gender (Female), Race (Black or African American), Ethnicity (Not-Hispanic or Latino), Place of birth, and Citizenship (United States). The 'Additional information' section contains checkboxes for 'Claims zero income', 'Considers self' (Mobility, Vision, Hearing, Impaired), 'Eligibility' (Eligible citizen), 'Job type' (- select job type), 'Student?', and 'Joint dependent?'. At the bottom, the 'Tax Credit' section has two checked checkboxes: 'Original household member' and 'Income qualified for LIHTC', which are highlighted by an orange rectangle.

Financial TAB

For Layered Properties

- Because certain Tax Credit properties need to calculate income at a rate higher than the standard affordable formulas, it is possible to enter different income and asset values for the TIC
- The system allows you to set higher projected income amounts for your TICs, while keeping the average projected income and asset values for the HUD, 50058, and Rural Housing certifications.

Compute annual income

☐ Annual salary

☐ Hourly wage

☐ Other

☐ Income Calculator: overtime, raises, bonuses, tips and commissions

☒ Average/highest estimated annual income

Average (HUD) \$ 38,130.00

Highest (Tax Credit) \$ 39,175.00

Annual income

HUD \$38,130.00

Tax Credit \$39,175.00

Save

Cancel

Rental ASSISTANCE

Rental Assistance (RA)

- Rental Assistance (RA) is added like any other financial item.
- If Rental Assistance is mapped under Setup, certifications will create schedule billing entries using the selected transaction code.
- If they are layered with HUD, the HUD AP from the 50059 will show on the TIC regardless of what is entered on the RA tab.
- Option in setup will allow RA tab entry to appear on TIC under “Rent assistance”

Setup - Affordable general settings 122.090.500.005

Lease renewals

☐ Lease cannot expire beyond certification period

Certification signatures
Number of days before the effective date certifications can be signed

	HUD - Form 50059	Tax Credits - Tenant income certifications	Rural Housing - Form 3560-8
Initial and move-in certifications	30	30	30
Annual and interim certifications	120	90	90

Certification prompting

☒ Enable prompts for certifications when adding or editing financials, contacts, or household information.

☒ Enable prompts for certifications when adding or editing information using the interview wizard.

HUD/50058/Tax Credit/RH combined certifications

☒ Enter average projected income amounts for HUD/50058/RH eligibility and highest income amounts for Tax Credit eligibility

Note: This will include asset values and income.

☐ Make the tenant income certification editable when certifying a household layered with HUD/50058/RH

Note: This will include pulling the rental assistance amount from the Rental Assistance tab to the tenant income certification as opposed to it pulling from the 50059/3560-8 and allowing the tenant rent to be edited through the Certify Wizard. The data on the tenant income certification may differ from that on the 50059/50058/3560-8 based on user input. Also, the tenant income certification will not write to scheduled billing, the 50059/50058/3560-8 will always create the scheduled billing entries. Any adjustments that need to be made on behalf of the tenant income certification will need to be made directly to scheduled billing.

Alternate workflow selection

☒ Activate the Conventional workflow for Select/change unit and check unit availability for all households

Select the default option ☒ Affordable ☐ Conventional

Note: 1. If the Affordable waitlist is active, the Affordable option will not be available when selecting a unit.
2. Using the Alternate Workflow on a Tax Credit site requires a Market program/set-aside.

Transactions

☐ Activate ledger adjustments for certifications run prior to the property's first bill date

Note: This could result in incorrect transactions or gains and losses. Only use this option if certification and market rent history is complete and accurate.

CERTIFICATIONS

Recertifications

- **Good for 12 months regardless of financial changes**
- The **next** time the household would need to provide income information 12 months after the last TIC
- ARs are **not always required** (100% LIHTC compliant)
- If a household is over the assigned AMI % they are still considered qualified
- If a household is greater than 140% of the AMI, it is considered an **over-income unit**
- An over-income unit is still considered qualified if:
- Rent remains restricted
- The next move in is a qualified household

***Next Available Unit Rule (NAUR)

Certification TYPES

Certification Types

Annual Recertification

- Typically 12 months on the **exact** anniversary date of move in
- Sometimes 1st year only

Interim Recertification

- Only used to change the rent and household changes are not reportable to the Compliance Agency

Gross Rent Change

Initial certification

- “Move In” or program start date

GROSS RENT CHANGE

Overview

The Gross Rent Change is NOT the same as the GRC in Affordable!

- Whenever the government releases a **new** utility allowance table, sites will edit the Utility allowances page under the Setup or Administration tab.
- Sites COULD then use the Gross rent change process under Administration to update tenant rent and/or utility allowances, non-optional fees, and assistance payments for all applicable residents at once.
- This functionality will make the proper adjustments to scheduled billing and the residents ledgers and COULD create a certification (just as an indicator of a UA change) on the certification list.

Gross Rent CHANGE

Administration / Affordable / Processing / Gross Rent Change

- Click “**New**” and enter the **date** of the gross rent change
- Click “**Build list**” (this may take some time)
- Enter the new **Tenant rent** and **UA** manually
- Any Assistance Payment changes would be entered by clicking on the **link**
- The RA tab opens and the financial item would be **updated manually**
- **Select** “Create Tenant Income Certification and update scheduled billing” or “Update Scheduled billing only” option
- **Submit**

Gross rent change - Set new rents

Review utility allowance table(s). The allowance amounts will be used here based on the gross rent change effective date.
 Enter a gross rent change effective date and select the build list button
 Check the new tenant rents, utility allowances and assistance payments that will be generated when gross rent changes are posted.
